#### Presentations (National and International)

- 2018      Assessing peg penetration in native glenoid bone for baseplate stability during primary and revision shoulder arthroplasty procedures using bone graft. Australian Shoulder and Elbow Society, Perth, Australia
- 2017      The arthroscopic Superior capsular reconstruction for irreparable rotator cuff tear British Elbow and Shoulder Society, Coventry
- 2017      Pain after reverse shoulder replacement British Elbow and Shoulder Society Coventry
- 2016      Assessing peg penetration in native glenoid bone for baseplate stability during primary and revision shoulder arthroplasty procedures using bone graft. British Elbow and Shoulder Society, Dublin
- 2015      Comparison of the Reconstruction Trochanteric Antigrade Nail (TAN) with the Proximal Femoral Nail Antirotation (PFNA) in the Management of Reverse Oblique Intertrochanteric Hip Fractures. British Orthopaedic Association, Liverpool
- 2014      A prospective study on the risk of glove fingertip contamination during draping in joint replacement surgery, EFORT London
- 2014      A simple diagnostic sign for FDP rupture EFORT, London
- 2014      Lifting incise drapes off the skin during wound closure can cause contamination: a prospective study in arthroplasty procedures. British Hip

Society, Exeter

- 2013 Complications and refractures after removal of forearm fixation in paediatric patients. British Orthopaedic Association, Birmingham
- 2013 The impact of dedicated upper limb trauma lists in district general hospital. British Orthopaedic Association, Birmingham
- 2013 Trainer supervision reduces intraoperative radiation usage amongst orthopaedic trainees during ankle fracture fixation. British Orthopaedic Association, Birmingham
- 2013 The addition of anti-rotation screw to the Dynamic Hip Screw for Garden I and II femoral neck fractures: is it worth it? EFORT -Istanbul
- 2012 Trainer supervision reduces intraoperative radiation usage amongst orthopaedic trainees during ankle fracture fixation. Royal Society of Medicine, London
- 2011 A prospective study on Ultrasound-guided steroids injections for Morton's neuroma: Does the size of the lesion matter? British Orthopaedic Foot Ankle Society, Windsor, UK
- 2009 Does Patient Positioning following Caudal Epidural Injection affect Outcome? British Association of Spine Surgeons, Sheffield, UK
- 2008 Effect of the wrist arthroscopy fact sheet on postoperative pain. British Orthopaedic Association, Liverpool, UK

(poster Presentations)

- 2014 A Comparison of Outcomes Following Operative Management of Distal Radial Fractures In Children: MUA Vs MUA + K-Wire. EFORT, London
- 2014 Outcome of acute soft tissue knee injuries referred to fracture clinic in a DGH. BASK, Norwich UK
- 2013 Effect of surgical approach on postoperative limp and early dislocation following total hip replacement for femoral neck fractures. EFORT Istanbul

- 2012      Dynamic Stabilization System (Dynesys) Has Less Favourable Results in Young Patients as Compared to the Fusion- A long-term follow up single Surgeon Experience  
EFORT Berlin
- 2011      A prospective study on Ultrasound-guided steroids injections for Morton's neuroma: Does the size of the lesion matter?  
BOA, Dublin
- 2009      Outcome of management of chronic discogenic low back pain with percutaneous nucleoplasty. British Association of Spine Surgeons (BASS), Edinburgh
- 2009      Is the Outcome of Caudal Epidural Injections affected by Patient Positioning?  
Eurospine Warsaw, Poland
- 2008      Facet joint disease, identified by SPECT, in a hospital-wide population. British Association of Spine Surgeons, Sheffield
- 2006      Approach to Osteoporosis. European Congress on Clinical & Economic Aspects of Osteoporosis & Osteoarthritis, Vienna
- 2006      Comparison between calcaneal BMD right, left dominant and non-dominant sides. European Congress on Clinical & Economic Aspects of Osteoporosis & Osteoarthritis, Vienna
- 2005      Incidence of subcapital hip fractures in southern Lebanon related to osteoporosis. European Congress on Clinical & Economic Aspects of Osteoporosis & Osteoart
