All aspects were excellent and most especially, the staff at every level were brilliant. Efficient, proficient, attentive and extremely caring.

About Spire Norwich Hospital

At Spire Healthcare we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently achieve excellent results, in a safe and secure environment. For us it's more than just treating patients, it's about looking after people, and the safety of our patients and colleagues is our number one priority.

It's our people that really set us apart

We know that you insist on the highest standards of care for the patients who put their trust in you, and you can be sure that our team will continue that care. For us it's more than just treating patients, it's about giving patients, their family and friends the most positive experience we possibly can in our hospital.

Our consultants

Every consultant working at Spire Norwich Hospital is on the specialist register of the General Medical Council and has met our practising privileges criteria. We know continuity of care is important. Once a patient has chosen their consultant, we will make sure that they are looked after by the same consultant, from the first appointment and throughout all treatment and follow-up care.

Our nursing staff

All our nurses are highly qualified and dedicated to caring for patients in a professional manner. For ultimate reassurance, we have a fully trained clinical team equipped to deal with medical emergencies 24 hours a day.

How to refer your patients

At Spire Norwich Hospital we are committed to delivering excellent individual care and customer service to all our patients, from the time they first get in touch with us until after their treatment is complete. Our dedicated and highly trained people aim to consistently deliver excellent patient care, in a safe and secure environment. We work to ensure every patient is treated as if they were our own vulnerable relative.

Self-funding patients

Self-funding patients are able to be seen by a consultant without a GP referral, although a letter is often preferred. We can provide a tailored fixed price inclusive care package* with no hidden extras on a range of diagnostic tests, treatments and surgical procedures. For more information, please call our Private Patient Advisers on **01603 255 614**.

- 1 Use Spire Connect to upload the referral letter. Call **01603 255 574** if you have any queries.
- 2 Our team will contact your patient to discuss consultants, dates, times and pricing.
- 3 We'll update you on your patients' progress.

Patients with private medical insurance

A referral letter is generally required from you before any insured patient can be seen by a consultant. Patients can call our bookings team on **01603 255 574** to arrange a convenient appointment.

- 1 Use Spire Connect to refer your patient. All patients using private insurance will need a referral letter.
- 2 Our team will contact your patient to discuss consultants, times and dates.
- 3 Your patient needs to contact their insurer to make sure they are covered for their appointment to see their chosen consultant.
- 4 We'll update you on your patients' progress.

NHS referrals

Spire Norwich Hospital provides a range of elective surgical services on behalf of the NHS, including hip, knee, spinal, foot and ankle surgery. Referrals must be made via the NHS eReferral system.

Private referrals

Referral letters can be:

- Submitted online at <https://spireconnect.spirehealthcare.com/>

Private Patient Advisers

For help in arranging self-funded consultations and treatment, including guide prices for investigations and surgery, please ask patients to contact our Private Patient Advisers on:

Phone: **01603 255 614**

Email: **cservice-nw@spirehealthcare.com**

Our fixed price packages* offer the following benefits:

- No waiting lists
- Fast access to leading consultants
- Treatment dates to suit the patient
- Personalised support and care

Typical treatments that can be self-funded:

- Ambulatory and inpatient ENT procedures
- Back pain treatment
- Breast surgery
- Cataract surgery
- Cosmetic surgery
- CT, MRI and ultrasound scans
- Endoscopy procedures
- Gynaecology treatment
- Hernia repair
- Knee, hip, or shoulder surgery
- Urology procedures
- Varicose vein treatment
- Weight loss surgery

Finance payment options are available for patients who wish to spread the cost of their treatment.

*Please see a copy of Spire Healthcare's patient terms and conditions for full details. Prices vary per treatment and are dependent on each patient's individual circumstances and needs.

No referral criteria

Referral into the NHS isn't always possible. At Spire Norwich Hospital we don't have referral thresholds – so your patient can quickly access consultant appointments and diagnostic facilities including MRI and CT scans.

Free, instant and secure online referral portal

Spire Connect enables practice staff to log in and send secure, instant online referrals to Spire Healthcare hospitals. The system is designed to be as simple and efficient as possible, while protecting all confidential information within secure servers. It's our people that really set us apart.

Visit <https://spireconnect.spirehealthcare.com> or click on Spire Connect from the healthcare professionals and resources tab on our website.

Registration

When you access Spire Connect for the first time you will be required to register a few personal details to allow you access to the site and grant you permission to make referrals.

The healthcare professionals resources area will also contain information from Spire Healthcare including news on our forthcoming CPD events.

Making a referral

To make a referral click on the 'Make an online referral' link and complete all relevant details.

NHS referrals

You may refer patients to Spire Norwich Hospital under the NHS choice regulations. To see what NHS services are provided and to make a referral, please use the NHS eReferral service.

Imaging and other referral types

You can make referrals for radiological investigations such as MRI, CT and ultrasound by selecting 'Imaging referral' under – 'Type of referral'. Please note, all radiology referrals must be signed by a GP. To make a referral for physiotherapy, select under 'Allied Health Professionals' in the specialty list.

Attaching patient notes

It is possible to attach patient notes to the form, however the ease of this will depend on your own patient record software. Take a look at the options available in your software to see if records can be 'exported' or 'saved as' to your desktop. Then from there you can attach them to this form. You will need to save the notes in a common format such as a text or word document (.rtf, .pdf, .doc, .txt), a spreadsheet (.xls or .csv) or an image format (eg .bmp, .jpg). Then click the 'submit' button at the bottom of the page to send the referral.

For more information on Spire Connect, contact Debbie Thorpe on **07525 589 907** or at debbie.thorpe@spirehealthcare.com

Are your patients with medical insurance using it?

Approximately 10% of UK population have a private medical insurance policy – but not everyone uses it*. If everyone who was eligible got treated using their cover, just imagine the impact this would have on NHS waiting lists.

We always encourage patients to tell their GP if they have PMI. Why not ask them too?
